Election Code Ratification Vote Results

On January 30, 2020, a final count of ballots was conducted by the Atikameksheng Anishnawbek appointed Ratification Officer. The results of the final count are as follows:

12% of eligible voters participated in the vote. 9 ballots were received by mail, 54 were received electronically and 61 were casted in-person with one improper mail-in ballot and no spoiled ballots counted.

Of those votes, 58% voted “yes” and 42% voted “no” regarding the proposed Election Code.

Council will be speaking with ISC and consulting our policies and procedures to determine next steps and a decision from Council regarding the ratification vote results can be expected by Tuesday February 4, 2020.

Further, this illustrates some of the challenges we have in reaching out to membership and we hope to improve this through increased communication efforts moving forward, including a portal for membership to update their information electronically.
