ATIKAMEKSHENG ANISHNAWBEK RECEIVES COVID-19 MODERNA VACCINES

Atikameksheng Anishnawbek hosts its first COVID-19 Vaccine Clinic

Atikameksheng Anishnawbek, Naughton, ON – Gimaa Craig Nootchtai announced today that Atikameksheng Anishnawbek has received the Moderna COVID-19 Vaccine for the residents and essential workers at the Independent Living Centre (ILC).

This is the first COVID-19 Vaccine Clinic for the community with majority of the ILC residents and essential workers receiving their first dose of the vaccine today. The Director of Health & Community Wellness is happy to report the clinic was a success.

The COVID-19 Vaccine is safe, effective and the best way to protect you and those around you from serious illnesses like COVID-19. The vaccine works with your immune system so your body will be ready to fight the virus if you are exposed. This can reduce your risk of developing COVID-19 and make your symptoms milder if you do get it.

Gimaa Nootchtai states “This is an exciting time for Atikameksheng Anishnawbek as we begin this journey to protect our members from the COVID-19 virus. This vaccine will allow our members to feel more at ease knowing their body’s immune system will recognize and fight the virus that causes the disease (SARS-CoV-2). If the virus reappears, their immune system will recognize and attack the antigens before the disease can develop and cause sickness”.

We want to thank Public Health Sudbury and Districts for assisting in the development and implementation of the vaccine clinic and look forward to the continued collaboration for a safe, effective and efficient rollout of the vaccine to protect against COVID-19.
